been notified of his paying a larger sum of money.

LAND-FENCING CASES.

Each of the ten indictments of the land-fencing cases contains three counts, and all are similarly drawn. They charge, first, erecting a fence in violation of the law pertaining to government land: second, maintaining said fences; and third, obstructing passage across government lands.

The illegal fencing of these lands, which are located in Cherry, Custer and other large counties in western Nobraska. was brought to the attention of the Interior Department several months ago. W. A. Richards, Special Land Commissioner, and Co. John S. Mosby were delegated to investigate the matter, and as a result it was left in charge of District Attorney W. S. Summers. John R. Defrees, a special agent, was sent to the range country to secure evidence and is said to have worked up 132 cases of instances where government land had been fenced. About 700 ranchmen were said to have fenced in about 6,000,000 acres.

Among the largest of these tracts was that of the Nebraska Land and Feeding Company, of which Bartlett Richards was president. His range extends over more than 200,000 acres and is about 100 miles long. Richards is said to be the largest cattle buyer and owner in the world, and is rated as a man of immense wealth. During the summer he has resided on his ranch near Ellsworth, Neb., and in the winter at Santa Barbara, Cal., where he is now living. At the United States Marshal's office it was stated that a capias would be issued for Richards and sent to the Californis district for service.

Frank N. Currie, who was also indicted for alleged filegal fencing, is an extensive ranchman of Custer county. He represented his county as State Senator to succeed Allen.

The land-tencing cases have excited intense interest because of the large number of wealthy and influential ranchmen concerned, and because of charges, some of which have been diled in Washington, that certain public officials were in collusion with the ranchmen to prevent an indictment. The gra

The Emperor opened the Diet to-day. The speech from the throne, according to custom, was delivered in the upper house and is as follows:

"It gives us profound cause for rejoicing that the friendly relations between our empire and other powers ever continues to grow. As regards negotiations concerning the important diplomatic matter of maintaining peace in the Orient and of our rights, we have instructed our ministers abroad carefully to attend to their duties.

The situation is regarded as extremey critical, and as likely to involve the

is looked on as doubly significant because hitherto the address in reply to
the speech from the throne has only
formally expressed thanks for the condescension of the Emperor in personally opening the Diet.

The House's action amounts practically to the impeachment of the Cabinet, and presumably the election of a new House of Representatives will necessarily rush the country into war. ALEXIEFF TOOK OVERTURES. CZAR'S APROVAL DELAYED.

PARIS, Dec. 10.—[By Atlantic Cable.] It now develops that the overtures were formulated after the conference between Admiral Alexieft, the Russian Viceroy in the Far East, and the Japanese authorities, the results being entrusted to Admiral Alexieft to forward to St. Petersburg. The Csar's approval of them will be communicated to Japan, when it is expected that the negotiations will proceed toward a conclusion. The pessimistic reports from Tokio are believed by officials here to reflect the feeling aroused over the delays preceding the Csar's approval of the general conditions for a Russo-Japanese agreement. These delays were unavoidable incidents of the Czarina's serious illness.

It is confidently believed that Japan's early receipt of official information regarding Russia's pacific course will result in a similar improvement in the Japanese aspect. PARIS, Dec. 10.-[By Atlantic Ca

being general that it involves a question which the Senate must determine for itself.

That a thorough investigation of the subject will be made by the Senate Committee on Privileges and Elections now appears to be beyond doubt. By those who are pressing the investigation, it is said it will be more comprehensive and searching than any similar inquiry ever held. An effort will be made to ascertain accurately the attitude of the Mormon church toward the government of the United States and to learn whether or not a member of that organisation is bound by any pledge or oath the taking of which is incompatible with his oath as a Senator of the United States.

It is believed by some, at least, of those who are opposing Senator Smoot that any effort made to prove he is a polygamist would result in failure, and while that point cannot be said to have been abandoned absolutely, it is quite certain the opposition will concentrate its endeavors to prove that the position that he holds in the Mormon church is incompatible with the oath of allegiance which he has taken to the United States. That proof must be ample, in the opinion of Senators, before he can be unseated.

As to the ability of the opposition to Senator Smoot to establish such a proposition, there is a wide divergence of opinion among the Senators, but there is a pretty general agreement that if it should be established, its result would be the unseating of the Utah Senator.

Mr. Carnegie said at the end of the meeting, when the progress of the past year had been laid before the board, that it was one of the happiest days of his life, and that he was simply astounded with the progress made. It is not the purpose of the institution to make known its plans, but rather to announce only what has already been accomplished. The plan of the institution is to secure the services of trained, specialised minds—men who have reached boundaries of human knowledge in various branches of research—and assist them in pushing back a little farther the line of ignorance and darkness. The institution is amply supplied with funds, and has oeen fortunate in finding men who are equipped to carry on original researches. REPUBLICANS SOLIDIFY.

IBT DIRECT WIRE TO THE TIMES. WASHINGTON, Dec. 16.—(Exclusive Dispatch.) Discussion of the chances of defeating the President for nomination grows apace as the hour of determining the time and place of the sext Republican national convention draws near. The debate has been intensited by the broadside in Perry Heath's former newspaper, the Cincinnati Commercial Tribune, calling for another candidate. Since then the local newspapers here have been interviewing Senators and others to see to what extent this "clarion call" was representative of Republican opinion. terviewing Senators and others to see to what extent this "ciarion call" was representative of Republican opinion. Everybody here realizes that if there is to be another candidate, Senator Hanna will be the man. Accordingly, he has not been interviewed this week on the subject, but practically all other Senators, who have been questioned, except Scott of West Virginia, are for the President. Orville H. Platt of Connecticut goes so far as to suggest that any other candidate would stand a large chance of defeat. It thus appears that the Republican party, as represented in the Senate, is for the President as against Hanna, who is a member of their own hody, and no one doubts that Republican opinion throughout the country is much better typified by these announcements of Senatorial preference that was Domocratic opinion in 1892, which was wholly unrepresented by the hostile stitude of the Senate toward Mr. Cleveland.

There was in the Democratic party

organizations in nearly all of the States.

There were some curious misrepresentations of fact in the Cincinnati broadside, chief of which was the assertion that the electoral vote of New York was essential to Republican success. There was a time when that was the case, and that time may confe again; but today, with a new alignment of electoral strength from the census of 1900, New York is not essential to Republican success, and will not be until the party develops weakness in the West, which would endanger the States now giving large Republican majorities.

The second error of the anti-Roosevelt broadside, which is characteristic of such attacks, is the charge that states like Massachusetts are wearying of Roosevelt. Massachusetts recently had a very good chance to show it, as the administration was on trial. Democratic opposition was thoroughly organized; had plenty of money and a good candigate for Governor. If there had existed any ground swell opposition to the President among the voters of the country towns, it would have showed itself in the year immediately preceding a Presidential ballot. The country knows the result. Republicans outside of Boston rallied to the support of the party with surprising strength, showing that the Republicans are proposed to the support of the party with surprising strength, showing that the Repubthe support of the party with surpris-ing strength, showing that the Repub-lican voters of Massachusetts are not

CONVENTION CITY RACE.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Dec. 10.—[Exclusive Dispatch.] Nearly all members of the Republican National Committee are now in town and it appears that Chicago will be the place in which the convention will be held. Other towns are here making blds, but Chicago is away in the lead tonight, and going ahead so fast that other cities, including St. Louis, appear to be tied to a hitching post. Detroit has already dropped out, and National Committeeman Blodgett says he is not even hoping that the city will get the convention, but he adds in the same breath that Michigan is "whooping things up for Rooseyeit." CONVENTION CITY RACE.

Cincinnati. Denver and other towns that were puffing and blowing for the convention some time ago have subsided, and there remain in the race only Chicago and St. Louis. Meantime, St. Louis is here asking Congress to please appropriate another \$4,00,000 for her World's Fair on top of the \$5,000,000 already appropriated for that purpose, and that is creative methods.

It is known that negotiations were pending by which there was to be a common use of certain Santa Fé, and Rock Island tracks by both of these lines between Kansas City and Chicago. Previous to these negotiations, the Santa Fé had completed an Important plan for avoiding the Raton Range. It involved the building of a line leaving the main line at Belen, thirty miles south of Albuquerque and extending eastward through the Abo Pass to Texico, a point on the south line of the Santa Fé system. Mr. Ripley said after the meeting this afternoon that this would now be pushed to a completion. It is known that negotiations wer

Army Men Doubt Statements Attributed to the General.

(BY THE ASSOCIATED PRESS-P.M.) HONOLULU, Dec. 16.—(By Pacific able.) Considerable interest has been roked here by the publication of a sport made by Col. Jones of the Ha-alian militia to Gov. Carter, in hich Jones in commenting on the which Jones in commenting on the strategic importance of the Hawdilan Islands and the need of strong de-fenses, quoted Maj.-Gen, MacArthur, United States Army, as predicting war in the immediate future between the United States and Germany, and that the principal scene of the fighting would be in the Pacific Ocean, with the Hawalian Islands as an objective point.

Jones did not correctly represent his views in any particular, and utterly misrepresented them in some. He would not discuss the matter further. Col. Jones, in an interview today, aid his report to Gov. Carter was based merely on a social conversation with Gen. MacArthur, and that he had only intended reporting his expressions of opinion with a view of impressing Gov. Carter with the need of strengthening the isolated islands from a military standpoint. He took no notes of his conversation with Gen, MacArthur, and his report was written from memory some time afterward. Ool. Jones said he was very much surprised that his report to Gov. Carter had been made public.

Gov. Carter had the following to say about the matter:

Gov. Carter had the following to say about the matter:

'The publication of Col. Jones's report was unauthorized by me, but it occurred through a misunderstanding. At my request Col. Jones wrote out a memorandum of his conversation with Gen. MacArthur two days after it took place for the purpose of preserving Gen. MacArthur and Cols. Soper and Jones had sought to enlist Gen. MacArthur's aid in getting back from the Federal government the military barracks site near the Capitol, which was taken during the Spanish War. It is now wanted by the Territory for an armory. I had an interview with Gen. MacArthur yesserday, and he referred to the strategic importance of the Hawnian Islands in the event of a possible war, but he did not mention any particular nation. He said, in substance, that Hawaii was the dominant strategic feature of the Pacific. He also gave gratifying support to the efforts to improve the Hawaiian Islands militia."

COL. JONES'S REPORT.

(BI THE ASSOCIATED PRESS—A M.1)

HONOLULU, Dec. 10.—[By Pacific-Cable.] Maj.-Gen. MacArthur, during the military conference, is alleged to have said that in all probability war will take place between the United States and Germany in the near future, which makes the Hawaiian National Guard of national importance.

Col. Jones's report quotes Gen. MacArthur as saying that the Pan-Germanic dectrine which is being spread throughout the world is being fostered and propagated by the Imperial government in every possible way. It is strong and getting stronger wherever German people settle, even among Germans who have been citizens of the United States for years. In connection therewith one fact cannot be overlooked, to wit: There were few Germans in the American Army during the war with Spain, so few, indeed, that the presence of a German was noted as being a rare occurrence.

The theater of operations is changing gradually to the Pacific. The German people are multiplying very rapidly and emigrating in large number, the tide of emigratino being directed by the German government toward South America. The manufactured products of the German empire overbalance their consumption, so that a market has to be obtained for the surplus. The known policy of the Emperor is to acquire colonies which will provide markets for such overproduction and places to which the tide of emigration shall be

a market has to be obtained for the surplus. The known policy of the Emperor is to acquire colonies which will provide markets for such overproduction and places to which the tide of emigration shall be directed for strengthening the fatherland.

Throughout all South American countries the Germans are advancing in commercial power and prestige. The conclusion seems inevitable that the interests of Germany in South America, here are today large colonies, numbering hundreds of thousands, presage another esting and straining of the Monroe Doctrine, and in all probability a contest of arms between that power and the United States in the near future, in which event no one can now forecast the attitude of England or other European powers. Therefore, it is the duty of the Federal government to make itself as strong as possible, so as to be able to care for itself in say emergency. No nation or number of nations will be in a position to make an attack on the Pacific Coast without first capturing these islands.

IBY THE ASSOCIATED PRESS—A.M.1
CHICAGO, Déc. 10.—In a riot on Halsted street near Archer avenue, growing out of the recent street-car strike, a non-union conductor and a non-union motorman were attacked by a mob and their car partially wrecked.

The trouble started when the passengers, several of whom were women, refused to pay their fares because the conductor did not wear a union button. The conductor stopped the car and announced that it would not start again until the fares were paid. While several of the passengers seized and

until the fares were paid. While several of the passengers seized and roughly handled the conductor, one forced the motorman at the point of a revolver to proceed.

The conductor probably owes his life to Policeman John O'Hara, who, quickly grasping the situation, rusned the former to a private residence near by, and, throwing open the front door, forced him inside. Then, appearing at a window with drawn revolver, the policeman threatened to shoot anyone who attempted to enter.

After driving the car for several blocks, the motorman leaped to the ground and ran, pursued by a crowd or men and boys. The crowd finally, failing to recapture either of the fugitives, returned to the car and partially wrecked it. Traffic was stopped for an hour and the mob, which grew to large proportions, was only dispersed upon the arrival of a patrol wagonload, or policemen.

The bonductor and motorman are policemen.

The conductor and motorman are said to have been employed during the recent strike as strike breakers.

IBY THE ASSOCIATED PRESS—A.M.1
STOCKTON, Dec. 10.—At this morning's meeting of the League of Municipalities a lively discussion was precipitated by Mayor L. O. Stephens of Fresno, he having suggested in a paper on "Purchasing Municipal Supplies" that every city should have a purchasing agent appointed by the purchasing agent appointed by the councils. While his plan met with some opposition from those who were against the one-man power, it found much favor. A motion was made to indorse the plan, but a substitute motion that it be referred to a committee to record, where the plan is the property when the property was the property when the to report upon it at the next agnual meeting of the convention prevailed. Chairman Clark appointed Stephens of Presno, Ing of Sacramento, Quinn of Watsonville, Drèss of Petaluma and Brown of San José.

Watsonville, 'Dress of Petaluma and Brown of San José. 
Secretary Mason expressed the hope that in the years to come a purchasing agent for all the cities of the State would be located at San Francisco. 
"Such a man," he said, "should receive \$30,000 a year, but he would be orth it; he would save that much us the cities in fire hose alone."

A paper by Mayor Snyder of Los Angeles, advocating crematories for garbage also provoked considerable discussion, most of the delegates favoring the plan.

Chairman Clark appointed the following committee to name the various standing committees: Stephens of Fresno, McFarland of Riverside, Coburn of Eureka, Roberts of Santa Cruz, Williams of Stockton, Keegan of Santa Rosa and Clark of Chico.

There will be a special meeting tonight, at which Mayor Warren Oiney of Oakland will open the discussion under the head "The Beautifying of Cities." The meeting will be Mayor Schmitz of San Francisco, Willard of the Los Angeles Municipal League and T. B. Brown, City Attorney of San Jose.

BROADWAY COR. FOURTH, LOS ANGELES ARTHUR LETTS, PROPRIETOR

Bargain-Friday is dedicated to the prudent, careful buyers, he or she to whom the saving of money is a matter of importance. Many of the most thrifty people in Los Angeles have contracted the habit of doing a large portion of their trading on Bargain-Friday. Why don't you try it? It means a saving of from one-quarter to one-third on the price of goods you purchase, or it means getting fully onequarter or one-third more goods without spending any more money. This week's bargain list is especially attractive, as it embraces many lines of holiday goods which have sold exceptionally well, and are therefore reduced to remnants. All remnants in this store share the same fate—they are reduced in price and forced out on Bargain-Friday. This week every crook, turn, nook and cranny in this big, busy store presents some splendid opportunity to save. The very greatest price concessions pertain to the shortest lines and smallest lots, and these find no newspaper space, so you must visit our store to get in touch with all the good things offered for Bargain-Friday.

Bavarian Officers Are Alleged to Have Found that Maltreatment of Privates .Will Bring Quick Release.

Will Bring Quick Release.

(BY THE ASSOCIATED PRESS—A.M.)

BERLIN, Dec. 10.—(By Atlantic Cable.) The upper house of the Bavarian Diet yesterday rejected the recent unanimous resolution of the lower house, demanding the dismissal from the army of officers and non-commissioned officers found guilty of the maitreatment of soldiers.

War Minister Von Asch, who favored the resolution in the lower house, changed his attitude in the upper house of the Diet, declaring that if the non-commissioned officers knew they could dissolve their relations with the army by maltreating soldiers, he feared that maltreatment of the latter would be increased, as many of the former would regard their dismissal as a privilege, rather than a punishment.

Another Bavarian commander, Gen. Von Fries, declared that the slight punishment inflicted by the military courts was mainly responsible for the abuses of which compainints are made.

His Motto.

He was interviewing the miserly rich man on how to succeed. "My motto has always been," replied the man or money, offering his visitor a stogie, and lighting a good cigar himself, "Never Despair."

"I thought," replied the interviewer, "that it was 'Never Give Up'—but it amounts to the same thing, alter all."

LODGE VISITS THE COUNTRY.

Louis Michaud, a member of Poppy Lodge, No. 228, The Frafernal Brotherhood, entertained the members of that lodge and several representatives of other lodges of this order, last Sunday, at his country home, between Tolica and Burbank. A special car took the party from, Fourth street to Holly-wood, and there they were met by four-horse wagons and driven through the Cahuenga Pass to the home of the host, where a banquet was enjoyed. LOS ANGELES, Dec. 8.—[To the Editor of The Times:] I am very glad to see the tobacco question taken up in your paper, and would like to add

A Word from a Widow.

In your paper, and would like to add my experience.

Last week, having to pay my taxes, I took the car and, as there were smokers on both ends, went inside. The wind was blowing from the southwest and one man with a strong cigar was seated on the end of the seat nearest the door, and from Hoover and Union to Second and Spring the car was filled with smoke.

From the Courthouse elevator by the way of different desks, standing in line, waiting for books to be looked over, papers to be filled out, etc., to the exit by way of the cashier's desk, the air was thick from the smoke of cigarettes, cigars, and pipes that smelled as if they were fully of age. Even pime of the employés had lighted cigars and pipes that smelled as if they were fully of age. Even pime of the employés had lighted cigars lying ready for every idle moment.

pme of the employes had lighted cigars lying ready for every idle moment.

I noticed weakly women, aged
women, and some carrying babes, and
one and all had to endure the same
stifling atmosphere.

I had never injured u man in the
room, and yet because I was an eiderly
widow with no one to go and pay
taxes for me, they puffed smoke in my
face, knowing I had no way to escape,
until, when my business was finished
I went to bed with a sick headache.
If I had been with the same number of women during this time there
would have been none of this nulsance. Then why should men impose
upon us in public places, where we are
compelled to go?

I do not believe they realize how
strong a hold smoking has on them.
Sunday a funeral car filled with a
fraternal order stopped at Rosefale
Cemetery: I do not know if they were
smoking in the car, but I do know
they had not left the car two minutes
until they were, and I thought, "How
dreadfully uncomfortable they will be
in the next world with no tobacco."

A CITIZEN OF LOS ANGELES.

the next world with no tobacco." A CITIZEN OF LOS ANGELES.

The Crib Evil,

LOS ANGELES, Dec. 10.—[To the Editor of The Times:] There must be an awful lot of ignorance in the police department, from the Mayor down, if they actually think, as they have said, that closing up the crib district will throw those people in other parts of town, for this reason, the inmates of the cribs do not live there, but live in other parts of town, so the scattering would not amount to anything, as they are already scattered. Fur-

her, there is hardly a lodging-house on Main, Spring. Broadway and the ross streets from Arcadia to Seventh street that has not from one to half a dosen girls that are ready to solicit if a chance offers; and outside of these limits there are houses all over town. Another class is the one-room palmists, massage and manicuring places. And it is not because the police don't know where they are that they exist, as every messenger boy, and most of the delivery boys, could tell of locations that would surprise the public. So I contend that closing the cribs will reduce one evil and will not increase another.

In Chicago there are at least 160,000 women who earn their own living. These had to get from their homes and back as best they could. It became a common sight to see a black coal-wagon filled with women; the large packing-houses sent wagonloads of their women employes part of the way home. The majority walked. This meant, for many, rising before daybreak and getting home after dark. Of 123,000 persons employed at the stockwards, 75,000 were affected by the strike, and more than 45,000 of these lived more than a mile away. Joe Hart, bound to dramatize something into a musical comedy, turned
to the comic supplements of a line of
Sunday's newspapers and produced
grow Grandpa. Grandpa is all there,
clothes and actions, just as he has been
seen in print, and along with him
are the two irrepressible kids, "Chub"
and "Bunt."
"Foxy Grandpa" is a bright, harmless trifle, and its two principal characters, Grandpa and Polly Bright, (Miss
De Mar) keep the action going whirlwind fashion every minute they are
on the stage—and one or the other of
them is on the stage most of the time.
As to plot: "Grandpa" takes his
grandsons to a Vermont summer hotel, where he does his utmost for their
enjoyment, and is faithfully assisted
by his private secretary. Polly Bright,
Signorina Colonna, an Italian adventuress, enlists the old man's sympathies and affections. The adventuress
tries to force him to marry her, when
her designs are frustrated by Signor
Bolero, a facial artist who has assumed Grandpa's disguise as an evidence of his protean abilities. Bolero
falls in love with Signorina Italiano
and is accepted by her as Grandpa.

This mix-up forms the basis of the plot.

Hart calls his acts "snap-shots"—an apt name. He is as funny as he used to be on the boards of the old Orpheum, and Carrie De Mar, although her voice is not in the best condition. has lost none of her cleverness as a comedienne. There is a tun-ful chorus of graceful and pretty giris.

Last night's audience nearly filled the house, and doubtless there will be a large business tonight—it being the last performance of the engagement. The next aggregation to visit this playhouse will be a company presenting "Are You a Mason?" Monday is the opening night.

in your paper, and would like to add my experience.

Last week, having to pay my taxes, I took the car and, as there were smokers on both ends, went inside. The wind was blowing from the southwest and one man with a strong cigar was seated on the end of the seat nearest the door, and from Hoover and Union to Second and Spring the car was filled with smoke.

From the Courthouse elevator by the way of different desks, standing in line, waiting for books to be looked over, papers to be filled out, etc., to the exit by way of the cashier's desk, the air was thick from the smoke of cigarettes, cigars, and pipes that smelled as if they were fully of age. Even spine of the employes had lighted cifars lying ready for every idle moment.

I noticed weakly women, aged

I had never injured a man in the room, and yet because I was an elderly widow with no one to go and pay taxes for me, they puffed smoke in my face, knowing I had ne way to escape, until, when my business was finished I went to bed with a sick headache. If I had been with the same number of women during this time there would have been none of this nulsance. Then why should men impose upon us in public places, where we are compelled to go?

I do not believe they realize how strong a hold smoking has on them. Sunday a funeral car filled with a fraternal order stopped at Rosefale Cemetery: I do not know if they were smoking in the car, but I do know they had not left the car two minutes until they were, and I thought, "How dreadfully uncomfortable they will be in the next world with no tobacce."

The Crib Evil.

The Crib Evil.

LOS ANGELES, Dec. 10.—[To the Editor of The Times:] There must be an awful lot of ignorance in the police department, from the Mayor down, if these actually think, as they have said, that closing up the crib district will throw those people in other parts of town, for this reason, the inmates of the cribs do not live there, but live in other parts of town, so the scattering would not amount to anything, as they are already scattered. Fur-

her, there is hardly a lodging-bouse on Main, Spring, Broadway and the cross streets from Arcadia to Seventh street that has not from one to half a dozen girls that are ready to solicit if a chance offers; and outside of these limits there are houses all over town. Another class is the one-room palmets, massage and manicuring places. And if is not because the police don't know where they are that they exist, as every messenger boy, and most of as every messenger boy, and most of the delivery boys, could tell of loca-tions that would surprise the public. So I contend that closing the cribs will reduce one evil and will not in-crease another.

The persistent efforts of certain bluerock lovers to 'rib up' some interest in the game are bound to be crowned sooner or later with success. An attempt was made several months ago to reorganize the old Los Angeles Gun Club, but it "died a-borning" owing to the oncoming of the game season, when all would rather shoot ducks and qualithan the mud saucers.

Those who are running the tournament would be very glad to see any knights of the scattergun who desire to come. By calling on Will Wright at Joe Singer's, Guy Lovelace or Jim Matheld at the Tufts-Lyon camp, or Ed Vaughan at Hoegee's, any necessary information can be obtained. The Sawtelle branch of the Santa Monica line runs right past the gate, stopping on order at the "Gun Club." The round-trip fare out is 25 cents, if tickets are bought at the uptown office on Fourth street.

BERLIN, Dec. 10.—Chancellor Von

by Herr Schaedler, Bavarian representative, to the maltreatment of private
soldiers, by officers, said:
"I am as much incensed by such brutality and cruelities as you are, and I

officers' corps. Such a pretense is hypocritical."

Turning to Herr Bebel's criticisms of the foreign policy of the government, Count Von Buelow pointed out the inconsistency of the Socialist leader in denouncing Germany's East Asiatic policy as too fantastic and romantic, while on the other hand he censured the Chancellor for his too passive policy in Manchuria.

"If there is any place in the world," said the Chancellor, "where we have nothing to seek, it is Manchuria. If Herr Bebel wants to head a new crusade to rescue the Manchurians I will let him proceed alone. I shall stay at home."

let him proceed alone. I shall stay at home."

Answering Herr Bebel's question as to why the difficulty with Venezuela was not referred to The Hague tribunal, at the outset, the Chancellor showed the impossibility of such a proceeding, for President Castro had not given his consent, "until we brought cartein necessive to bear upon his mind." He denounced Herr Bebel's unbridled criticisms of Russian affairs as contrary to the traditions, wishes and interests of the German people."

Taking up the social reform legislation, the Chancellor said the government would continue its policy, hoping within a decade to institute pensions for widows and orphans and a system of giving assistance to unemployed workmen.

Struck by a Car.

Ernest Flick, aged 14, who resides on North Main street, was struck by a car of the Pacific Electric Railway Company on Spring street between Second and Third last night and severely injured. He was crossing the street and got out of the way of one car, and while watching it was struck by another going in an opposite direction. He was thrown violently almost to the curb and was unconsclous when picked up. His injury was to his head, and when taken to the Receiving Hospital he was suffering from concussion of the brain. Motorman Bone says he did not see the boy until the moment he was struck. At the hospital it was discovered that he had sustained a fracture of the right collar bone. The boy is blind in one eye and to that infirmity the accident was due. Struck by a Car.

## RICH MINER'S CORPSE DENIED RESTING-PLACE.

Woman to Whom He Bequeathed Fifty Thousand Dollars, Refuses to Pay Undertaker's Bill -- O'er Strange Tale of Mystery.

HE corpse of a rich old miner, John H. Means, has laid unburied in this city for three months, dealed even a resting place in the Potter's field, because the mysterious "lady friend" to whom the old man left \$50,000, will not pay the funeral expenses. The bills for his last illness, even to his doctor's bill, are unpaid. She declines to settle.

his doctor's bill, are unpaid. She decilines to settle.

When Means died in September at a cheap lodging-house, near the railroad yards, this woman was living in human bis circumstances in the South-of-

old man when he lay dying, and declined with a shrug of her shoulders to look at his body when he was dead. So the poor old fellow was joited full of dope to keep him from decay and hustled off to a receiving vault at Rosedale Cemetery, where he is held for debt by an undertaking firm. His bones have been rattled over the stones, for he is only a \$50,000 pauper whom nobody owns.

As a matter of fact, there is no telling what he was worth. He had about the least idea of anybody, and evidently considered himself a very poor man.

Miss Andrews. Orr and Hines were notified and the body was taken there. When the remains had been embalmed and had lain there a day or two. Miss Andrews put in an appearance. She came to the undertaking parlors at 10 o'clock one night and got the attendant out of bed. With her was a man who answered to the name of Lord. She did not make a good impression on the attendant, Mr. Crawford. He says she was dressed loudly and—well, she dresses too loudly. She proved to be a woman of middle age and not a girl.

They offered to show her the re-

CAN'T KEEP OUT OF TROUBLE. H. Bell Arrested for Theft of Money

Which Had Been Entrusted to Order that He Might Borrow Other Cash. H. Bell, a son of Maj. Horace Bell, was arrested yesterday by Patrolman Butler on a charge of petty larceuy, which probably will be changed to that of embezzlement. Bell is accused of having stolen \$20, which he secured in a peculiar manner. Wednesday afternoon he went into the St. Charles saloon on North Main street accompanied by a farm hand named Perkins, but who is known on the streets as "Tex." The latter had money and Bell wanted to "borrow" if He represented himself as the fore man of the Workman ranch, and of man of the Workman ranch, and offered "Tex" the assistant foremanship. "Tex" did not take stock in him and told him that he did not believe he had any money Bell then went to the barkeeper and asked that he be given \$20 only for the purpose of showing his companion that he had money. The innocent bartender let him have the \$20-and Bell left the place with it. Yesterday the bartender related the circumstances to Patrolman Butler and Bell was arrested. He is not employed on the Workman ranch and had no authority to employ laborers or farm hands there. He admitted that he had secured the money, but refused to make restitution.

#### TO GET INTO YOUR HOUSE.

Gas and Electric Man.

Method of Thief Who's Look ing Up Lay of the Land.

Operating in Southern Part of City-Woman Insulted.

If you are a customer of the Los Angeles Lighting Company, look out for a man who is going from house to house and falsely representing himself to be a representative of that concern. The fellow's purpose is simply to gain admission into some resiply to gain admission into some resi-dence and there steal all there is in sight, or to make a survey for the purpose of ascertaining whether it worth while to force an entrance and burglarize the place at night. If such an individual appears at your house and without presenting proper eredentials asks to be admitted, hold him if you can end notify both the police and the gas company, both of whom are looking for him; and if he gets away, take a good description of him so that you will know him the next time.

The foregoing is advice directed particularly to housewives, and it is the substance of an order which has been issued to the entire police department, for there is an impostor at work in Los Angeles, trying to work the Chicago game by means of which house after house has been robbed in the Windy City.

For several days the officials of the worth while to force an entrance

game by means of which house after house 'nas been robbed in the Windy City.

For several days the officials of the Los Angeles Lighting Company have known that such a man is working here and they have tried every means of detecting him, but without success. He has been operating in the southern portion of the city almost exclusively and in that section a number of burglaries have been committed, although none of them have been traced to this individual. Yesterday he was unusually zealous in his efforts. At the residence of John L. Butler, No. 319 East Twenty-ninth street he became so enraged when Mrs. Butler refused to admit him to the house that he was insulting in his consersation with her. When the matter was reported to Butler he telephoned to the gas company's office and was told that similar reports had been received from various parts of the city. It was stated that employes of the company are always able to properly identify themselves and the company warns all its customers against admitting to their houses any person who can not do so. Even if the applicant is really an employe, if he cannot convince the housewife that he is what he represents himself to be, the company desires that he be refused admittance. In Chicago and other Eastern cities, the plan of trying to impersonate gas or water company employées has become a favorite method of crooks in their efforts to secure admission to private residences, and many of the work of such impostors.

FIND MANY VICTIMS.

COLLECT MONEY FOR WRITE-UPS THAT WILL NEVER APPEAR.

Proprietor of Angelus Hotel Among the Repudiates Los Angeles Canvassers for Its Christmas Edition.

Two young men, well dressed and good talkers, have been making godd wages at the expense of the business men of Los Angeles by obtaining money by false pretenses. As yet their real names are not known, but the detectives believe they will be able to ascertain who they are and how much they have defrauded the Los Angeles merchants out of.

The men represent themselves as solicitors for the San Francisco Call, and to their victims tell a well-worded story of being here for the purpose of securing "write-ups" and other advertising for the Call. They seem to know the business and their manner shows that they probably have been engaged in that kind of newspaper work.

The story they tell is that the Call is preparing to issue a special Christmas number devoted particularly to the interests of Southern California, and that as much space will be devoted to Los Angeles as the merchants and others interested here will subscribe for. The rates they demand for write-ups are high. It is said also that they present on demand what appear to be properly-signed credentials from the Call, and by means of them have been securing much business.

Last night. W. J. Martin, business

erly-signed credentials from the Call, and by means of them have been securing much business.

Last night. W. J. Martin, business manager of the Call, sent a telegram to this city, in which he stated that there are no men engaged in Los Angeles to solicit business for the Christmas-edition of the Call.

Among the victims is the proprietor of the Angelus Hotel, who listened to their blandishments and parted with \$57 on the promise that his hotel was to receive a "write-up." Other merchants have been fleeced of sums ranging in amount from \$10 to \$50. The detectives believe that the sharpers have secured many hundred dollars. It is also believed that they have received the tip that the officers have been informed and that they have left the city. The swindlers gave different names to each of their victims.

#### PRICE 3 CENTS. DIDN'T PAY.

Hotel Melrose.

Imposter Impersonating the

Dan A. McNeal was arrested yesterday afternoon by Detectives Hawley and Murphy on a charge of defrauding an inn-keeper. The warrant was issued at the instance of the proprietor of Hotel Meirose. It is alleged in the complaint that the accused boarded at that hotel long enough to run up a bill of \$257; that he left without paying, and that he refused to make a settlement.

The hotel people did not know where he had gone and believing he had left the city, secured a warrant for his arrest. The detectives found him at work in a wholesale house on Loss Angeles street and placed him under arest. He asserts that he had no intention of not paying the bill, and that he left the hotel simply because of a disagreement he had had with the proprietors. He says he did not intend to leave the city or defraud anybody, but he will pay as soon as he is able, provided he is given an opportunity. BEAUTIFUL SPECIMENS RECEPTION BY KERAMIC CLUB

Great Progress Made Among Local Artists in This Line, and None Better Anywhere—Exhibition Open Today and Tomorrow to the Public.

The Woman's Club House never had a richer setting for the entertainment of an artistic and fashionable throng, than that which characterized the opening of the third exhibition of the Los Angeles Keramic Club.

There were eighteen tables of magnificent specimens of the keramic art, covering every possible phase of taste and elegance, and the large company of guests that attended the reception last night went into extaces over the richness of the display. There last night went into ecstacies the richness of the display, are almost twice as many exh

the richness of the display. There are almost twice as many exhibitors as there were two years ago, and best authority upon the subject of keramic art may be quoted to the effect that the exhibition has not increased simply in magnitude, but progress in elegance of design and execution has advanced at the earn ratio.

Miss Jessie Washburn, president of the club, is most sorely disappointed at her own misfortune. She went to New York and spent three months under the very best artists in keramics, and at the close of that period she shipped to Los Angeles the results of her labors along new lines, and anticipated great pleasure in displaying her, work at this exhibition. After six weeks spent on the road, her dataty handlower kne not yet arrived and as a consequence she does not appear at all in the list of exhibitors. She took the keenest interest and delight, however, in praising the great progress made by the Los Angeles artists and in indicating cretain little points of excellence in the work of each of her sister artists as she went from table to table. "I have been in touch with the very best in keramic art, she said," and I am free to say t.at there are none producing any more perfect work than out local artists—and there is no reason why they should. Almost all the ladies engaged in the art in this city have at one time or other been pupils of the recognized masters in this line of work, and they have proven apt pupils. This display will compare well with that shown anywhere. Our club has increased from ten members at the time of our first exhibition to thirty-seven members at present."

The officers of the club are Miss.

at the time of our first exhibition to thirty-seven members at present."

The officers of the club are Miss Jessie Washburn, president; Mrs. B. J. Arthur, vice-president, under whose direction the present exhibition has been afranged; Miss Louise, Hahn, secretary Miss Fannie Benjamin, trensurer.

Those exhibiting are, Mrs. G. G. Balley, Mrs. N. A. Bradshaw, Mrs. C.-P. Ralleback, Mrs. L. C. Young, Mrs. William Akey, Mrs. B. Hampton, Mrs. Dalton Bond, Mrs. J. W. REQUEST MADE OF CHIEF OF THE FORESTRY DIVISION.

Park Commission Takes up Movemen to Secure Plant Station for Griffith Park-Corps of Experts Now Working

in The Forest Reserves.

The forestry division of the Department of Agriculture may order an ex-amination of Griffith and Elysian parks to determine what kinds of tree and plant life are best adapted to the soil and climate. Henry W. O'Mei-veny, chairman of the Civil Service Commission, and other citizens have taken great interest in the work of reforestation that is being carried on by the government, and Griffith Park is regarded by them as an excellent

amination of the two parks. He said that manifold advantages might come to the city if the plant station was piaced in Griffith Park.

In accordance with a vote of the board a letter requesting the forestry division to devote some attention to Griffith and Elysian parks was forwarded to Gustav Pinchot, chief of the division, yesterday afternoon.

A corps of experts has been at work in Southern California for some time making examinations in both the San Gabriel and San Bernardino forest reserves. Government circles at Washington are alive to the importance of the work of reforestation in the Southwest and voluminous reports on plant growth and soil and climatic conditions are being prepared for the forestry division.

J. B. Limpincott of the Hydrographic

are being prepared for the forestry division.

J. B. Lippincott of the Hydrographic Survey, who is personally acquainted with Chief Pinchot and other officials of the forestry division, is going to Washington before the holidays and he has promised to bring the examination of the city's parks to the attention of the department.

Should a plant and exotic station be established in Griffith Park the improvement of that wild expanse would be greatly facilitated. The government would not only determine through its experts what kinds of trees and plant life were particularly adapted to the soil of the park, but would probably furnish from the station the plants and cuttings needed in the actual planting. The Municipal Art Commission has also undertaken to interest the forestry division in the plan for the location of a plant station in Griffith Park. City officials are hopeful that "a long pull, a strong pull, and a pull all together" will, bring the station with its many attractions to Los Angeles.

MINIATURE RAILWAY.

Something of a tempest has been occasioned by the attempt of J. J. Coit to establish a miniature railway in Eastlake Park. A week ago Coit and Councilman Robert Todd, his attorney, visited the park with members of the Park Commission and went over the Park Commission and went over the Park was agreed that the work could proceed.

proposed route of the railway. At that time it was agreed that the work could proceed.

Superintendent Legrand did not favor the establishment of the railway in the park and he went on record as opposed to the scheme at the session yesterday. He read a written statement, in which he declared that as the railway crossed the park drives in several places, the small engine might frighten horses and harm children. More people visit Eastlake Park than all the other city parks put together, he said, and it would be poor policy to increase the attractions of the spot.

J. J. White, one of the lessees of the boating privilege, made objection to the railway. He said that it would cut into his business. The lessees of the boating privilege spay \$65 a month to the city. White therefore argued that the railway, the said that it would cut into his business. The lessees of the boating privilege spay \$65 a month to the city. White therefore argued that the railway, the said that it would cut into his business. The lessees of the boating privilege should bring an income to the city also.

On behalf of citizens interested in the park, Joseph Mesmer addressed the board, asking that very careful consideration be given the application before the request was granted.

Attorney Todd assured the board that the miniature railway was to be the finest of its kind, that he promoters stood ready to invest at least \$5000 in making the park attractive, and that there was not the slightest danger to bersons frequentling the park and no likelihood that even the most fractious horses would become frightened at the engine.

The board finally referred the entire railway proposition to a committee, consisting of Commissioners Jones, Rice and Stewart and Superintendent. Legrand, with power to act.

It is practically settled that the miniature railway will be built, but the committee may possibly after the route shown on the original map to some extent.

SUPERINTENDENT'S REPORT.

Superintendent Legrand submitted to the commission his annual report embodying a résumé of the work accomplished by the department during the official year ending November 30. The heavy frost that visited the parks last spring and the scarcity of water during the summer months, Superintendent Legrand says, militated very much against the accomplishment of tasks which he had set for himself upon taking the position a year ago. Snails or slugs made ravages in plant life for two or three months of the year. The report says that for a time they were gathered in by the bucketful overy morning. The fact that much of the money expecided by the department has gone into the ground to replace old and worn-out water pipes is brought out by the report. For this reason less show than usual has been made during the past year in the parks of the city.

Euch park is discussed separately in parks of the city.

the report. Griffith Park is alluded to as an ideal place for picnickers and the construction of new driveways is reviewed. In all about 7600 feet of roadway has been constructed in Griffith Park this year.

The lakes in Eastlake and Hollenbeck parks have been riprapped and many small improvements made in other parks. The report is very voluminous and reviews in detail the planting of various kinds of shrubs and trees in the several parks.

WHAT PARKS COST.

WHAT PARKS COST. WHAT PARKS COST.

Secretary Harry Hopkins presented to the board a report showing the expenditures on account of the several parks for the official year, as follows: Elysian Park, \$10,776.61; Eastlake Park, \$21,118.96; Westlake Park, \$9820,77; Hollenbeck Park, \$11,283.39; Echo Park, \$4783.41; Nursery Park, \$4925.59; South Park, \$5130.50; Griffith Park, \$6041.84; Sunset Park, \$2013.37; Prospect Park, \$1513.15; Central Park, \$2399.90.

The total expenditures for the year were \$86,387.60, and the income from boating privileges and other concessions was \$1409.45.

#### WILL MAKE ARRESTS.

RAILWAYS REFUSE TO SPRINKLE What if the genial H. E. Huntingon, multi-millionaire, and owner o divers street railway systems, should be arrested and thrown into the com-mon bastile? And what moreover would Mr. Huntington do for ball money if he should be placed in such a sorry plight?

a sorry plight?

These questions are agitating the city officials in general and the City Attorney in particular just now. The railway companies have failed to comply with the penal ordinance which requires them to sprinkle their rights of way through the streets. To enforce the ordinance some bersons in requires them to sprinkle their rights of way through the streets. To enforce the ordinance some 'persons in authority must be arrested and brought into court. It was intended to name the managers of the companies in the complaints, but Epes Randolph of the Pacific Electric has been out of the city, and Manager Muir of the Los Angeles Railway Company is ill.

Apparently the finger of destiny paints at Mr. Huntington, the president of the two roads, and the guiding spirit of the Traction system.

All day yesterday the sprinkling wagons, under orders from Street Superintendent Werdin, carefully avoided wetting the companies' tracks and the rapidly-moving cars were free to stir the dust as much as possible.

Supreme courts of Eastern States have ruled that street railway companies must sprinkle their tracks in order to abate the nuisance caused by the dust. It remains to be seen whether the California Supreme Court will think likewise.

#### Lazarettos for Lepers.

Some of the county officials profess to believe that the city health department worked a film-flam game when a woman who was discovered in a downtown lodging-house suffering from leprosy was sent to the County Hospital. In turning the unfortunate woman over to the county authorities Health Officer Powers acted with a full knowledge of the law. Section 2552 of the Political Code of California says: "It shall not be lawful for lepers or persons affected with leprosy or elephantiasis to live in ordinary intercourse with the population of this State; but all such persons shall be compelled to inhabit such laxeretics or lepers' quarters as may be assigned to them by the Board of Supervisors of the city or county in which they shall be domiciled or settled, and the Board of Supervisors are vested with power and are required to make all necessary provisions for the separation, detention and care of lepers or persons affected with leprosy or elephantiasis, settled or domiciled in their respective cities or iled in their respective cities

Many, many times it has happened that claimants have come in with stories that proved to be utter fakes, and all they had to do was to swallow their chagrin at being unsuccessful. Now there is a large trouble sign out.

#### ROBBED THE BASQUE.

OF HIS WATCH. The Sheriff's deputies are looking for two men who robbed a Basque sheep-herder under somewhat ridiculous cir-cumstances Monday night. The vic-tim's name is Anton Guercio. He lives ear Bassett Station.

near Bassett Station.

Monday night two men drove up in a wagon and asked for something to eat. The lonely shepherd was delighted to have them stop with him. As they ate, they casually asked him if he had any firearms in the bouse. He said he had not; whereupon one of them reached up and took down a watch that hung on the wall.

The Basque picked up a board and whacked him on the head. At this the other man fired at Guercio and they both fied, the bigger of the two rubbing his head as he ran.

"It's too late to be talking about being good. Not much danger of a man being good who comes to town and lays around on the street drunk the first day he is here."

#### Paid Fot the Show.

R. Schmidt came down from Bakera-field on Tuesday and proceeded to take in the sights of the red-light territory. On his rounds he met a saloon-waiter with a platter of whisky glasses and a handful of beer botties, and seemed to think that was a good place to plant a \$20 gold piece. He batted the waiter over the head, cutting a big gash—and Justice Austin raked in twenty for the city.

Happy Fanciers in Throngs at the Hen Reception.

"High Class of Birds" Say the Perspiring Judges.

the Perspiring Judges.

To have watched the crowds that visited the poultry reception in Hazard's Pavilion yesterday one might well have believed half of Los Angeles was in the chicken-business. The attendance has greatly exceeded that of any other hen-show in local history.

Awards were finished yesterday, and the selection of winning birds proved exceedingly difficult. The average of the show was unusually high, there being probably more fine birds and a greater variety of fancy birds shown than ever came together on the coast herstofore. In almost every class individuals failed to score awards that would have carried away all the honors at any ordinary exhibition. Especially fine pens of Orpingtons were shown, and Minorcas of grand class were present in abundance. Of the table fowl, the barred and white Rocks, Brahmas and Cochins attracted much attention from the public on account of their size and evident quality. Some especially handsome Blue Andalusians were noticed, and the pens of Wyandottes, silver-laced and gold-penciled were typical of this beautiful breed.

Of ornamental fowl a fair showing was offered, golden, silver and Mongolan pheasants, beautiful Mandarin ducks, and various bantams being well represented.

Turkeys, ducks and geese attracted much favorable comment from well-versed spectators, who constituted themselves temporary judges of good points and demerits.

As a whole the directors express great satisfaction at the grade and number of birds, and the flattering attendance. The awarding, completed yesterday all but special prizes, which come today, was as follows:

thodox. It will be observed as usual this year in the Synagogue Beth Israel on Olive street. A service will be held Sunday evening, at which Cantor M. Lubbel and a choir will chant the ancient songs of the Jews, and there will be adresses on the typical meaning of the feast. A feature of the ceremonies is the lighting of lights from day to day, each time the number being increased until the close of the feast.

In honor of the feast a ball will be given by the ladies' society of the Congregation Beth Israel, Sunday night at Turner Hall, after the services at the synagogue.

In connection with this feast a series of addresses on topics of general interest to the Jewish people will be given at a mass meeting to be held next Thursday, evening at the Beth Israel Synagogue, under the joint auspices of the Young Zloniets' Association and the Ahabath Zion Society.

At this time the subjects discussed will be "Chanuka, its History and Reflections Upon the Present," "Shekel Day," "The Jewish Colonial Bank," The Stockholders of the Jewish Colonial Bank, in which many Los Anseles Jews have made investments, have received notice that a 10-cent dividend has been declared on the shares.

SHE REJECTS STAGE OFFERS.

SHE REJECTS STAGE OFFERS.

PITTSBURGH (Pa.) Dec. 10.—Mrs.
Katherine Soffel, wife of the warden of
the Allegheney County Jail at the
time of the escape of the notofious
Riddle brothers from that institution,
was liberated from the Western penitentiary today, having served twenty
months for the part she played in that
sensational affair. During the incarceration in the penitentiary, Mrs. Soffel's husband was granted a divorce.
She has rejected offers to go on the
stage and says she will live in retirement at her father's home.

Gov. Cummins of Iowa, who was to
have spoken at last night's banquet
of the Boston Merchanis' Association,
was called to his home by naws of the

J. P. Cavaller, who, by the way, would surely make a hit on the stage in the same humorous role that is his daily enjoyment. He said yester-

would surely make a hit on the stage hi the same humorous role that is his daily enjoyment. He said yesterday:

"Ze Mayor, Mr. Baldwin? ze owner of Arcadia? Oh, he has gone to 'Frisco to get moneys to build dis city. Ze Trustees have gone to. I am the City Clerk."

And with a profound bow the old Frenchmen wiped tears of merriment from his brimming eyes, and held his sides in laughter. Cavalier has been in the employ of E. J. Baldwin for over fitty years.

The City Clerkship is more of an honorary position, than anything else, with the jovial old Frenchman. He does not draw a cent of salary, but lives in perfect contentment at the Hotel Arcadia, as its guest for the rest of his life.

Improvements have already commenced at Arcadia. A large corps of masons and carpenters is building a packing-house, just east of the hotel in the Y formed by the Santa Fé and Southern Pacific railroads. The house is 60x120 feet, two stories high and has a cement basement 60x60 for the storing of boxes. The plant will be able to pack two cars a day and is favorably situated for shipping via either railroad. Spurs are to be run in from both tracks. The second story of the packing-house is to be used for the packing of dried fruits and the establishment will therefore be working a force of employes the greater part of the year.

The Pacific Electric has located a Japanese railroad camp of 100 men, one block west of the hotel. The men are comfortably housed in little huts about \$xi9 and will remain there the greater portion of the winter, putting in the double track to Monrovia. The new schoolhouse in Arcadia has been completed and is in charge of Mrs. Robillard, who has thirty-two pupils. Mrs. Robillard states that it is expected that pupils who have been attending school in Puente will be eighty pupils and that an additional teacher will be secured.

It is the preventing water from running of the instructions issued to policemen is to problish gambling. It is the preventing water from running down hill. Like the law against liquor, it is one of the hardest to enforce, and absolutely cannot be, by one policeman. But that is what Salvader Duro tried to do. He quiestly told eight or ten men who had filled up on rank wine that they would have to quiry gambling or he would have to quiry gambling or he would have to quiry gambling or he would have to quiry gambling of he would have to quiry gambling or he would not to shape and covered with blood. This unproved the his face being cut, bruised and awollen out of shape and covered with blood. This unproved was made by the most of the proved with blood. This unproved the gambling bouts.

It is supposed the agent, Mr. Schell, will take vigorous action to put down such insubordination.

STRANGE CRIME SOLVED.

ROME, Dec. 10.—[By Atlantic Ca-le.] A strange crime had a dramatic ble.] A strange crime had a dramatic solution today. Young Berettta, a mil-lionaire of Milan, and a famous sports-man, was invited by the Chevaller Anglo Vecchio, an organizer of sporting shows, to his villa, to examine some old shows, to his villa, to examine some old pictures. Once there, Bereita was seized and obliged, with a revolver pointed at his head, to make a will leaving his fortune to Vecchio, besides writing a letter denying he had committed sulcide. An accomplice was instructed to drown Bereita the next day. The heart of the accomplice softened, however, and he set Bereita at liberty, and Vecchio disappeared. Today it was learned that he had committed sulcide on the famous Monte Pince drive.

POMONA, Dec. 10.—A Sait Lake construction train ran into and killed Charles McManus, a man about 60 years of age, tonight. He had started to drive a team across the track at the crossing on West First street near the Espiaus winery. The headilght of the engine was bright, and the workmen seeing the man and toam ahead, shouted to him in warning, but the horse balked on the track. McManus's back was broken and the wagon demolished, but the horse escaped injury. Mr. McManus lived here a number of years ago, and had been to the Klondike. He had recently come here again from Toluca with his wife, son and daughter, and was returning tonight from Buena Park, where he had driven for a load of goods for a nephew. The man was unknown when taken to Bowen's undertaking rooms, but was identified later by his son, who had chanced to hear that a man had been run over.
